

3.3.1E The University cooperates with medical institutions in academic research to improve the health and well-being of campus teachers, students, and local communities

The University cooperates with medical institutions in academic research to improve the health and well-being of campus teachers, students, and local communities

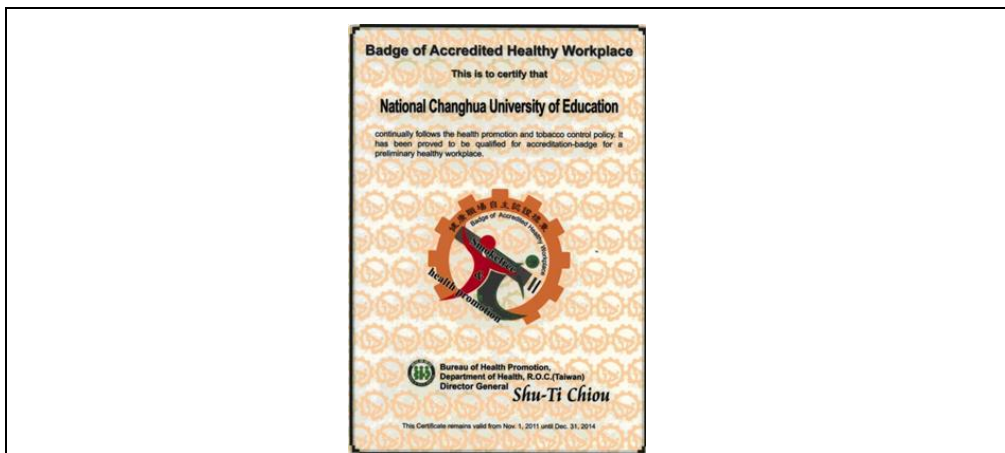

1. The University signed a memorandum of cooperation on sports professional instructor training and service planning with Show Chwan Memorial Hospital. The University had common cooperation intentions for health promotion activities and services for the elderly and the public and diversified and continuous services for personal sports health promotion. It was also involved in the development of academic research projects in the field and provided local community services.
2. In combination with the implementation of the sports professional instructor service plan of colleges and universities of the Sports Administration of the Ministry of Education, the school will organise trained student sports instructors in the hospital or community field of Show Chwan Memorial Hospital to encourage the middle-aged and elderly to establish regular sports habits and create a friendly environment for the elderly, to achieve the goal of promoting the health of the elderly and delaying disability.
3. We cooperate with the Medical Center - Changhua Christian Hospital to support the resident services of doctors and provide health care for teachers and students on campus.
4. We cooperate with the regional teaching hospital - Show Chwan Memorial Hospital, as a special hospital for health examination or a hospital responsible for disease treatment and prevention.
5. We cooperate with the Health Administration to organize health promotion work such as AIDS prevention and control education, influenza vaccination, and infectious disease prevention and control, to create a healthy campus and maintain the health of teachers and students.
6. Special hospitals have been signed with 27 regional medical hospitals to provide preferential treatment and choice for teachers and students.
7. We cooperate with the Medical Center to promote CPR + AED first aid technology and set up 13 AED first aid electric shock devices on campus to provide emergency rescue and a safe and healthy campus.
